

## **Best Practice**

### **CRITERIA – IV**

Title of the best Practice: networking for Development of Professional skills and Knowledge in Library management

#### **Objectives of the Best Practice –**

1. To update students about the library facilities available in the college .
2. To enhance skills and knowledge among students to access various source of information
3. To develop reading skills among the students.
4. Networking for updation in Information Technology.

#### **The Context that required the initiation of the practice:**

The library is the source of information. Now a days E- learning platforms are available to make person updated on single finger click sources. Students should make updated on this sources hence it is required to have access to this sources in the library

#### **Practice**

Orientation programmes organised for the Students

Various competition organised for students to enhance reading skills such as My favourite Book competition , Poster making competition etc. ,

Involve students in internship for development of professional skills in library management via networking.

#### **Evidence of success**

Through these practice it is observed that students reading skills has enhanced and sparing more time in library. It is also seen that the students could express their thoughts on reading through posters making . students also have got knowledge about various sources of information available in library. Increased human resource to address students need.
